

FRESHWATER
FUTURE

Dear Honorable Senators,

I am asking you to direct the Army Corps of Engineers to immediately work toward separating the Mississippi River system from the Great Lakes to stop the Asian carp. If this species ever becomes established in our Great Lakes, our native fish populations could be devastated and our entire ecosystem of rivers and lakes may never recover. Studies show current protection efforts by the Army Corps of Engineer *will not keep smaller carp out*. I believe this threat must be addressed immediately, while the Corps' timeline and actions do not.

Sincerely yours,

Take
these three
actions:

1 Please sign and complete the postcards. Then fold, insert into an envelope and mail to:

Freshwater Future
PO Box 2479
Petoskey, MI 49770-2479

2 Visit www.freshwaterfuture.org/asiancarp to sign a petition and for more information.

3 Please consider making a donation to Freshwater Future to support our efforts to STOP the Asian carp, by visiting our website or sending a check.

Thank you for taking
action to make a
difference and protect
our Great Lakes
