

2025 GRANT OPPORTUNITIES

**FALL CYCLE DEADLINE:
SEPTEMBER 30, 2025**

FRESHWATER FUTURE'S GRANT PROGRAMS

PROJECT GRANTS

The Project Grant Program provides awards ranging from \$500 to \$5,000 (USD) for grassroots project expenses and activities that promote water protection.

This can be done by influencing community or individual behavior, addressing corporate conduct, or encouraging good public policies. Projects should strengthen the role of individuals and community groups working locally to protect drinking water, shorelines, inland lakes, rivers, wetlands, and groundwater in the Great Lakes Basin.

Freshwater Future's grant programs provide financial support to community groups working locally to protect drinking water, shorelines, inland lakes, rivers, wetlands, and groundwater in the Great Lakes Basin through grassroots advocacy efforts.

SPECIAL OPPORTUNITY GRANTS

Special Opportunity Grants are "emergency grants" for projects working to protect drinking water, shorelines, inland lakes, rivers, groundwater, and wetlands that may not coincide with the application timeline or funding period of the Project Grant Program. Grant awards are up to \$750 (USD).

For more details about our Grants Programs, to view past grantees' work, or see our Frequently Asked Questions, visit freshwaterfuture.org/grant-programs.

ABOUT PROGRAM

Freshwater Future grant programs have provided more than \$5.9 million over the past 29 years that support community-based efforts to protect the waters in our Great Lakes region. Visit our website for a map of projects.

ASSISTANCE FOR APPLICANTS

WE ARE HERE TO HELP!
Please call us to discuss potential projects and ask questions! Call Alana to see if your project is a good fit for our grants program.
